

Title: Unmanned Aerial System (Drone) Policy—Rowan University

Date: January 29, 2019

Rowan University supports the educational uses of unmanned aerial systems (“drones”) across its campuses and facilities. The University also recognizes the risks posed by drones to students, faculty, staff, the public and property. This policy offers guidance to operators of drone technology on Rowan University campuses and property.

This policy applies to all members of the University community, including, but not limited to, faculty, staff, students, clubs, organizations, vendors, and any other individuals who are operating a drone as part of their employment or as part of any university-related research or activity. This policy also applies to any person or entity not affiliated with the university that operates a drone on university property, including recreational and non-recreational drones. This policy does not apply to Public Safety or any government agencies responding to emergency situations.

:

All drone operators must comply with Federal Aviation Administration (“FAA”) regulations governing drone usage. Where applicable under federal law, some drones in a certain weight

Indoor uses of small drones are permitted only for research and teaching purposes and must be done

criminal offense to operate a drone while intoxicated. N.J.S.A. 2C:40-
