***Association of College and Research Libraries (ACRL) Standards for Faculty Status for Academic Librarians**

(http://www.acrl.org/standards/standardsfaculty)

2. Library governance

College and university librarians should adopt an academic form of governance similar in manner and structure to other faculties on the campus.

3. College and university governance

Librarians should be eligible for membership in the faculty senate or equivalent governing body. They should have the same degree of representation as other academic units on all college or

Librarians should have access to the same grievance process as other faculty which includes a list of grievable issues, procedures to be completed within specified timeframes, safeguards

~~against retaliation by the institution, and choice of the policy by the grievant. The process~~

I do not fall into the traditional model of faculty performance expectations. But with a

Inquiry Librarians have applied a wide range of quantitative and qualitative research

Application. Academic librarianship applies the theory and knowledge gained through inquiry,

enables librarians to manage those resources effectively as a result of a thorough understanding of the institution's curricular goals and requirements, teaching methods, faculty research interests, and student learning abilities and styles.

Professional and outreach service activities are the means by which librarians attempt to serve their clients by influencing information policy development, the approach to improved

there are varying degrees of value placed on the different performance categories. It is therefore to be expected that reward structures will differ according to institutional missions. It is natural that departments of chemistry or philosophy at research universities might focus on developing

that will be more of a focus in their mission while their counterparts at liberal arts or community
